Apicij Cœlij de Opsonijs & Condimentis five Arte Coquinanaria Libri Decem.

Cum Annotationibus Martini Lister è Medicis Domesticis Serenissimæ Majestatis Reginæ Annæ, & Varijs Lectionibus integris Humelbergij, Barthij, & Variorum.

Londini. 1705. 8vo.

THe Learned World hath been already oblig'd to the *Ingenious Editor* for his Notes upon *Sanctorius*, and *Hippocrate's Aphorisms*; yet in this Edition of *Apicius* he is pleas'd to give further proofs of his generosity in serving the Republick of Letters.

His Preface may be justly call'd a Critical Introduction to the History of *Apicius*, as to his Country, his Age, his Design, and the Various Editions of him, at *Venice, Basil, Lyons, and Zurich*; amongst which many doubts are clear'd up, and the Annotations themselves of *Dr Lister* will appear as Valuable as those of the most profess'd *Criticks*. He being intent upon Things, and They too frequently upon Words.

After the *Prolegomena* come the X Books of *Apicius* under their distinct Titles, with the *Scholia* and Notes of *G. Humelbergius, C. Barthius, Dr Lister*, and others; amongst which are interspers'd several Remarks of *J. Casaubon, Salmasius, Nonnius, &c.* all distinguish'd in the several Columns of this beautiful Edition.

Amongst these, the Reader will meet with many passages of the Ancients illustrated, and set in a true light; especially *Horace, Celsus, Scribonius Largus, Dioscorides, Pliny, Athenæus, Celsus Aurelianus, Martial, Petronius, The Rei Rustica Scriptores the Geoponici*, and many others. At the End there is a very particular and compleat *Index*, of great Use in a Work of such Variety of Words and Matter, as must needs occur in the *Dietetic Medicine*.

'Twas thought proper to Print only 120 Copies of this Piece, to satisfy the Curious, (who may be very few) at the expence of some Noble and Liberal Subscribers, whose Names are affixt on the back of the Title Page; after the manner of publishing *Mr Lhwyd's Lithologia Britannica*, in the year 1699. *London. 8vo.*

Printed for *Sam. Smith and Benj. Walford*, Printers to the Royal Society, at the *Princes Arms* in *St Paul's Church-yard*, 1705.
